

# Meet Your Specialized AI Agents

## The Power Behind SAFE TPRM

SAFE TPRM's Agentic AI transforms a broken TPRM process by delivering full lifecycle automation—designed to scale across thousands of vendors, while eliminating manual friction at every step.

While fully autonomous, they're designed with a "human-in-the-loop" approach, giving teams the ability to override, approve, or customize actions whenever needed. Discover the power of Agentic AI-driven third-party risk management, enabling: **100% Autonomous TPRM** | **Zero-Effort Vendor Interaction** | **Scaled-Up Third Party Coverage**.

### SAFE TPRM AI Agents

#### Public Records Agent

Surfaces critical risk signals from multiple sources like SEC filings, breach databases, trust centers, and more

#### Digital Footprint Agent

Builds a third party's digital risk profile using domain data and online presence

#### Outside-In Agent

Continuously scans a vendor's external attack surface to identify exposed assets and risks

#### Trust Center Agent

Parses trust centers to auto-extract certifications, policies, and security artifacts

#### Fourth-Party Agent

Uncovers hidden fourth parties by mapping downstream vendors like AWS, Slack, Okta, and more

#### Contract Intelligence Agent

Analyzes contracts to flag missing clauses, compliance risks, and security misalignments

#### Communication Agent

Automates reminders, clarifications, and auto-drafts follow-ups to vendors

#### Monitoring Agent

Tracks third-party risk posture over time and alerts on key changes, breaches, or reassessment triggers

#### Evidence Analyzer Agent

Reviews uploaded documents and auto-classifies them enabling quick analysis and review

"SAFE has really brought true innovation to cyber risk management. SAFE handles the creation, outreach, follow-ups, and gets us what we need—without all the back-and-forth. We're completing assessments faster and with more insight than ever, and the best part is, it requires almost zero effort from my team. I've gained maturity and capacity without adding headcount."

**Dr. Heather Dart**  
Sr. Manager of IRM  
at Danaher

# Why Should You Trust SAFE's AI Agents?

**Transparent by Design:** Every action taken by SAFE's AI Agents is fully traceable. From data sources used to decisions made, teams can audit and validate how outcomes were reached—ensuring explainability, not black-box automation.

**Human-in-the-Loop Governance:** Agents are built to assist, not replace. Analysts retain full control over assessments, with override, review, and approval options available at every stage—ensuring critical judgment always stays with the team.

**Security and Privacy Built-In:** All data is encrypted in transit and at rest. Agents follow enterprise-grade security protocols and are deployed in compliance with data residency laws and privacy regulations like GDPR.

## Main Capabilities

### Autonomous Execution

From auto-discovering vendors to assigning risk tiers and triggering follow-ups, SAFE's AI Agents take action without waiting for human input.

### Risk-Aware Decision-Making

SAFE's AI Agents analyze public data, contracts, external signals, and questionnaires to prioritize third parties based on actual business risk—not checklists..

### Continuous, Multi-Signal Monitoring

Agents monitor vendors 24/7 across external attack surfaces, trust centers, breaches, policy changes, and more—ensuring assessments remain current, not stale.

### Self-Serve Collaboration for Vendors

Each third party gets a secure portal to respond, update records, and share artifacts. AI handles the reminders, nudges, and status updates automatically.

## ROI That Scales

Each agent operates continuously, pulling signals, analyzing documents, and making decisions instantly. The result? Massive time and cost savings without sacrificing precision.

Here's a glimpse into just a few agents delivering exponential ROI:

AI Agent	Without SAFE TPRM	With SAFE TPRM
Public Records Agent	10 hours per vendor	< 1 minute per vendor
Contract Intelligence Agent	8+ hours per contract	~45 seconds per contract
Fourth-Party Agent	6-10 hours per vendor	< 1 minute per vendor
Outside-In Agent	100+ minutes per vendor	< 1 minute per vendor
