Corewell Health Leverages SAFE Security for Agile Risk Management

Positive Business Outcomes

- **Rapid Risk Assessment:** Corewell Health effectively evaluated the risk associated with implementing MFA on its Basespace application, guiding decision-making.
- **Enhanced Risk Management Capabilities:** The partnership with SAFE Security has empowered Corewell Health to make data-driven decisions and improve its overall risk posture.
- **Strategic Alignment:** The team's enthusiasm for SAFE Security demonstrates a strong alignment with Corewell Health's risk management goals.
- **Comprehensive Risk Assessment:** SAFE Security enabled Corewell Health to gain a comprehensive understanding of risk across its hospital systems, identifying areas of highest risk concentration.

Before SAFE

- **Limited Visibility into Risks:** Corewell Health lacked a comprehensive understanding of the risks associated with its applications, hindering effective decision-making.
- **Manual Risk Assessment Processes:** Traditional risk assessment methods were time-consuming and prone to errors.

After SAFE

- **Data-Driven Risk Decisions:** SAFE Security's platform enabled Corewell Health to quickly assess the risk associated with implementing MFA, guiding their decision-making process.
- **Streamlined Risk Management:** SAFE's intuitive interface and automation capabilities streamlined Corewell Health's risk management processes.
- **Enhanced Collaboration:** The partnership fostered collaboration between Corewell Health's security, privacy, and operations teams.

This case study demonstrates the value of strategic partnerships and innovative risk management solutions. By leveraging SAFE Security, Corewell Health has been able to make data-driven decisions, improve its risk posture, and enhance collaboration among teams.
